Cesa Collection is a part of Info-system. For the time being, the collections are preserved in three different localities in Turkey. This is a collective scientific information system of the Centre for Entomological Studies Ankara (Cesa).

Info-system is based upon the following units of the Cesa:

Label information of the Insect Collections of the Cesa (a large number dried, mostly pinned specimens) <http://grbio.org/cool/d36c-mrx> [currently, server is down]

Genitalic slides (more than 3000 examples).

Library of the Cesa (more than 100.000 pdf files), and numerous entomological books, separates, micro-fiches, etc.

Published data, based upon the Library [from 1968 on], including all kind publications of the Cesa [from 1981 on]

DataBank, based upon the Card system of the Cesa [between 1968 and 1997]

DataBank, computerized worldwide information of the Cesa [from 1998 on]

Worldwide digital photographs (more than 300.000) and video archives of the Cesa [from 1983 on]

Barcode Bank of the Old World Lepidoptera [from 2018 on]

The process of the collections

Various scientific stages or studying programs realized regarding the process of existence of this collection are briefly illustrated below:

Figs. 1-3 - Observations: Some illustrations from various field studies: Thailand Chiang Mai 23 3 2006 (left and middle). Thailand, Mae Hong Son 26 3 2006 (right).

Figs. 4-5 - Collecting and observation: Illustrations from various field studies: South Africa, Limpopo: Medike, in December 2003.

Figs. 6, 7 - Collecting and observation: Some illustrations from various field studies: South Africa, Limpopo: Medike, in December 2003.

Figs. 16-19 - Studies in the laboratory: Preparation of the male genitalia and photography of the prepared genitalic slides (left). Process of the preparation of DNA barcodes of the Lepidopteran specimens (right).

Private Cesa Collection

in progress

The main collection of the Old World Lepidoptera, and the equipments are preserved in Ankara Province. However, the studies on a large number of the specimens are ongoing in Van and İçel Provinces. In the summer of 2019, we evacuated the building due to an unexpected flood disaster. The rest of the collection, library and all the equipments were transported to a temporary place for a year. In summer of 2020, our old place has been repaired by us with the valuable help of our neighbour Mr. Yalçın Berker. The rest of the collection, library and equipments moved back again. In August of 2020, pandemic was very heavy in Ankara. Therefore, arrangement of the material and the library could not be realized. Following selected images belong to this sequence of events.

Older equipments of the Cesa

in progress

Various models of typewriters of the Cesa with their plastic carbon bands. They have been used for the publications between the years of 1975 and 1998. For example, Priamus volume 5 was typed by Olivetti Praxis 35 in 1989.

Pocket compass (left). Handy Scanner (middle). Sony HandyCam (right). This was used during South Africa (Transvaal) expeditions in 2003 and 2004.

Two models of Panasonic Video recorder. They were used in Northern Thailand Expeditions in 2006.

Various models of digital cameras. Fujifilm (top left) was used in South Africa (Transvaal) in 2003 and 2004. Two other Canon models were used for various excursions until 2011.

Computers and digital programs used in the Cesa

in progress

First computer of the Cesa was very primitive one, working with DOS system, without mouse, with 20MB harddisc. In 1990, First issues of Miscellaneous Papers and Memoirs were published by using this computer. Later, several new computers and notebooks were purchased for the Cesa with the programs Windows 97, Windows 3.1, Windows Xp, etc. Our database system begun with the cards in 1980. In 1998, FoxPro2.5 of DOS version was used for the personal database. Several personal programs have been also developed by using Delphi 3. program. For example, "TET" program (FoxPro DOS + Delphi 3.) has been produced for the purpose of evaluating of the Entomologists. The first result of this program was published in 2007.¹ In the near future, the results of the TET program will be updated in a publication.
